

Curriculum Vitae

Jane McHowat

Department of Pathology
Saint Louis University School of Medicine
Doisy Research Center
1100 S. Grand Blvd.
St. Louis, MO 63104
Tel: (314) 977-9295 Fax: (314) 977-8499
Email: mchowaj@slu.edu

EDUCATION:

1980 - 1983	De Montfort University B. Sc. (First Class Honors) Pharmacy
1983 - 1984	Leicestershire Area Health Authority Pharmacy Pre-Registration Training Year
1984 - 1988	University of Bath Ph. D. Pharmacology Cardiovascular Control by Central Beta-Adrenoceptors in the Rat

ACADEMIC POSITIONS:

1987 - 1988	Leicester General Hospital Resident Pharmacist
1988 - 1989	Lewisham Hospital Pharmacist Grade D Residency & Research
1989 - 1993	Washington University School of Medicine Department of Cardiology, Postdoctoral Research Fellow
1993 - 1997	University of Arkansas for Medical Sciences Department of Pathology, Research Assistant Professor
1997-2002	Saint Louis University School of Medicine Department of Pathology, Assistant Professor
2002-2007	Saint Louis University School of Medicine Department of Pathology, Associate Professor
2007-Present	Saint Louis University School of Medicine Department of Pathology, Professor

SOCIETY MEMBERSHIPS:

American Heart Association
American Physiological Society

PUBLICATIONS:

Manuscripts, Reviews and Book Chapters:

1. Wu, J., McHowat, J., Saffitz, J.E., Yamada, K.A., Corr, P.B. Inhibition of gap junctional conductance by long-chain acylcarnitines and their preferential accumulation in junctional sarcolemma during hypoxia. *Circ. Res.* 1993; 72, 879-889
PMID: 8443874
2. Yan, G-X., Yamada, K.A., Kleber, A.G., McHowat, J., Corr, P.B. Dissociation between cellular K⁺ loss, reduction in repolarization time and tissue ATP levels during myocardial hypoxia and ischemia. *Circ. Res.* 1993; 72, 560-570 PMID: 8431084
3. McHowat, J., Yamada, K.A., Saffitz, J.E., Corr, P.B. Subcellular distribution of endogenous long chain acylcarnitines during hypoxia in adult canine myocytes. *Cardiovasc. Res.* 1993; 27, 1237-1243 PMID: 8252583
4. McHowat, J., Corr, P.B. Thrombin-induced release of lysophosphatidylcholine from endothelial cells. *J. Biol. Chem.* 1993; 268, 15605-15610 PMID: 8393449
5. McHowat, J., Yamada, K.A., Wu, J., Yan, G-X., Corr, P.B. Recent insights pertaining to sarcolemmal phospholipid alterations underlying arrhythmogenesis in the ischemic heart. *J. Cardiovasc. Electrophys.* 1993; 4, 288-310 PMID: 8269301
6. Yamada, K.A., McHowat, J., Yan, G-X., Donahue, K., Peirick, J., Kleber, A.G., Corr, P.B. Cellular uncoupling induced by accumulation of long-chain acylcarnitine during ischemia. *Circ. Res.* 1994; 74, 83-95 PMID: 8261598
7. McHowat, J., Corr, P.B. Biochemical membrane mechanisms underlying arrhythmias during myocardial ischemia and their role in sudden cardiac death. In: *Sudden Cardiac Death*, Akhtar, Myerburg & Ruskin eds., Williams & Wilkins, Philadelphia, 1994; 82-101
