PRACTICE PROGRESSIVE NURSING IN A NETWORK THAT'S TRULY WORLD-CLASS.

Navy Health Care is like nothing else in the world. It's an environment where you'll be surrounded by like-minded people who have made a conscious decision to do what they love for the sake of their country. It's a team composed of four diverse "Corps" units – **nurses, physicians, dentists and specialists** – all working together to **support our nation's servicemembers and humanity at large.**

Unlike civilian health-care systems with their bureaucracy and red tape, the Navy allows you to **concentrate on just the things that drive you: helping others, expanding expertise and gaining uncommon experience.** All without the usual business distractions. So, ultimately, it leaves you free to be the kind of nurse you hope to be.

The standards are high. The challenges are great. But just **think of the difference you could make as a nurse in the world of Navy Health Care.**
